EXTRAORDINARY CURE OF A COUGH

The following letter has been received from WILLIAM BEARDS, Esq., an extensive agriculturat and land agent, residing at Edmonton, Midllesex :- Nightingale Hall, Edmonton.

"Dear Sir,—I have recently suffered much from a most violent cough, proceedir, i from a tickling in my chest, which no remedy, out of many I resorted to, could allay. My head was constantly aching, and my whole frame entirely shaken. Having seen the good effects of your Balsam of Aniseed in several members of my family, I purchased a small bottle, and, when going to bed at night, took a teaspoonful in two tublespoonfuls of water, just warm. The effect was immediate; it arrested the tickling in my chest, I slept well; and arose perfectly restored in the morning, with the exception of debility, arising from fatigue by incessant coughing for some days previous. My cough entirely left me, and has never returned Having since heard of a lady in the neighborhood who for a long time had laboured under a most distressing cough, and who had resorted to every remedy within her knowledge, I sent the remainder of the bottle to her; and that long-standing, obstinate, and (as she thought) incurable cough, was perfectly cured. You are at perfect liberty to make what use you may please of this communication, as the contents are strictly true I shall take every opportunity of recommending your inestimable medicine, feeling as I do fully assured of its efficacy.

THE propriety of extending the provisions of the new Reciprocity Treaty, now in course of preparation at Washington, over this Colony, is being urged upon the attention of the Home Government by British Colum. bians resident in London, and others having important interests here. A memorial signed by a number of bankers and mercantile firms who have branches here, has just been handed the Secretary for the Colonies by G M Sproat, Esq.; and Mr Waddington who continues his noble efforts in our behaff), has addressed a letter to Sir John A. Macdonald, the Canadian Promier, bringing the matter to his notice. The flattering result of the last six months' operations of the Vancouver Coal Company at Nanaimo, cannot but exert a most favorable effect upon our interests in the London Money Market, and restore that confidence among capitalists which has long been wanting. Under a Reciprocity Treaty our coal and lumber, fish, whale oil, ores, hides, tallow, wool, lime and hundreds of other productions, would find steady and remunerative markets at American ports; and Nansimos and Brightons would spring up like magio along the coast-consuming all the agricultural products that could be raised in the Colony, and hundreds of tons from abroad beside. Let the agitation for Reciprocity here and in London continue. We cannot have too many mines opened or mills running, and Reciprocity would give us the entire coal trade of the coast.

THE elections in Great Britain have resulted in an overwhelming defeat for the Ministry, and the return of the Liberals to power with Gladstone as Premier is virtually secured. The Liberals have thus far secured 310 seats and the Conservatives 168-a result which places the Liberals too far ahead to be overtaken, even should the Government secure a considerable majority of the seats remaining to be filled-some 200 in number. With the return of the Liberals to office the disestablishment of the Irish Church, the introduction of important measures for the tranquilization of India, and Ireland, and (let us pray !) a reform in the Colonial policy of the country, are assured. The refmored Parliament assembles on the 10th December, when the Disraeli Ministry will resign and Mr Gladstone be requested by her Majesty to form a new Ministry.

The New Colonial Secretary.

EDITOR BRITISH COLONIST:- You inform your readers this morning that Mr P Hankin, formerly Supenintendent of Police in this city, has been gazetted Colonial Secretary of Brandy, in Bulk, Hennessy's, supr Pale Ginger Brandy, this Colony.

You are probably not aware, for I cannot suppose that you would suppress a fact for the purpose of inducing your readers to concur in your unfortunate disapprobation of the appointment, that Mr Hankin has served for the last eighteen months as Colonial Secretary of British Honduras, and that as late as the 1st of October last, he was gazetted Colonial Secretary for Her Majesty's settle-

May we not presume, from his appointment here, that he has given satisfaction at the Colonial Office in England to those who were in a position to form an opinion about

him.
Having been approved by all those with whom he has been connected, including Captain Richards, Admiral Denman, ex-Governor Konnedy, and His Grace the Duke of Buckingham, Mr Hankin may perhaps of Buckingham, Air Hankin may perhaps yet survive the serious charge you bring against him, that he was more crammental than useful when last in the Colony, even though he should have been somewhat distant in his manner to the 'gentlemen of position' who were entertained at the expense of the Colony under his control.

Mr Hankin does not owe his appointment to indigential relations or connections, but

to influential relations or connections, but simply to his own personal merit and to those friends his merit has won for him, and comments on his appointment appear your comme

The New Appointment.

Editor British Colonist:—Your correspondent 'A. deC.' is apparently desirous of keeping himself prominently before the public; but judging from the sentiment of the community, freely expressed, he can have but few particians on the subject of his communication in this morning's issue. Mr Colonial Secretary Young has lived in the Colony many years, is well posted upon the requirements of the country, and is as anxious for its prosperity as any man. Moreover, it will take an able official some time to gain Mr Young's experience. It is hard that the Colony should lose a tried and faithful servant in the hour of its greatest need; for all must admit that to his valuable assistance the country is indebted in being enabled to tide over the financial ordeal which has passed since the union of the Colonies.

Surely there is energy enough left in us to make a very respectful remonstrance.

HOLSOWAY'S CINTMENT AND PILLS—Ever useful .—The afflicted by illness should look their disease fully in the face and at once seek a remedy for them. A short search will convince the most sceptical that these noble medicaments have afforded ease, comfort, and oftentimes complete recovery, to the most tortured sufferers. The Ointment will cure all descriptions of sores, wounds had legs, sprains, eruptions, erysipelas, rheumatism, gout, and skin affections. The Pills never fail in correcting and strengthening the stomach, and in restoring a deranged liver to a wholesome condition, in rousing torpid kidneys to Increase their secretion and in re-establishing the natural healthy activity of the bowels. Holloway's are the remedies for complaints of all classes of society.

ALARMING ACCOUNTS of the state of public feeling in San Francisco continue to be received here. Several large firms have already closed out their business, and withdrawn from the State, and many others are preparing to follow. No property in the lower part of the city can be sold save at a great sacrifice, which many do not hesitate to make in order to get away. Steamers for the East and Portland go crowded with passengersseven hundred came up on the last trip of the J L Stephens to Portland-and a general feeling ot alarm prevails everywhere. Numerous latters received here confirm all we have written on the subject, and one or two who at first declared our account 'ex. people: aggerated,' are now forced to acknowledge its correctness. It will be strange, if in the general exodus, we do not receive some considerable accessions to our population.

FAMINE AT THE RED RIVER SETTLEMENT .-Mr Mactavish, the Governor of the Red River Settlement, writes that the Council of the district had decided on 'distributing aid in net-twine, hooks and ammunition to the known to our citizens as a member of the poor among the settlers to the extent of Marsh troupe, had died of Asiatic cholera at £500, and on importing flour to the extent of Shanghai. £500, and send wheat to the extent of £600, from the public funds.' He adds that this is fully as much as the state of the public funds of the settlement will allow. Mr Mactavish has been authorized by telegraph to expend £500 on baralf of the Hadson Bay Company to meet the most pressing wants of the population, and as chairman of the company Lord Kimberley makes an earnest appeal to the public for aid to save these poor people from starvation.

A WASHINGTON letter-writer says ;- 'Rewerdy Johnson's speechifying diplomacy is only not relished generally here, but is absolutely meeting with disfavor by many of the liberalists of England. A letter received here not many days ago from a leading English liberal complains that our newly installed representative at the Court of St James has snubbed every liberal member who has approached him, and predicts that he will be completely bamboozled by Disraeli and Stanley unless he speedily cuts loose from the cunning aristocrats into whose seductive meshes he has fallen."

CENTRAL AMERICA .- The Panama Star and Herald of a late date say :- On Saturday some dozen native gentlemen were invited to the Government house on important business, which they found on getting there was for the purpose of borrowing from them the sum of \$6000, on refusing to loan which they were locked up for the night. After turning the matter over in their minds they all, except two, concluded to consent to comply with the request of the President, and on giving their notes for the amount they were get at liberty.

ARRIVED .- The bark M B Roberts, Capt. Rollins, from San Francisco arrived yesterday, having left that port on the 11th inst. three days of which time were lost on entering the Straits from light adverse winds. She bringe 300 tons of general merchandise, and one passenger, Mr R J McKenzie. She will commence discharging cargo this morning. This beautiful ship is the sister vessel of put, the vote was a tie, and then Mr Young, the Grace Roberts, which was so much ad- the President of the Council, gave a casting mired when here last summer. Before vote in favor of the Resolution—and so it returning she will go to Burrard Inlet to passed in the affirmative.' load with lumber at Captain Stamp's Mill. Millard & Be dy are the consignees.

GOVERNMENT BUILDINGS .- Some sensible improvements are being made in the wings of the different offices at the Government buildings. The old flat roofs covered with tin, which were always leaky, have been raised and shingled. The whole work consumed 100,000 shingles, and 100,000 feet of lumber, and will be completed by Mr Emery the contractor, within eight days The alterations, besides of being really necessary, greatly improve the general appearance of the buildings.

POLICE COURT .- Two Stickeen Indians were before the Court yesterday on a charge of fighting; they were both bound over in \$30 to keep the peace for six months, or in default to be imprisoned for one month. An application was made by Mrs Clark to protect the earnings of a wife; application granted. John Wilson charged with being at large insane, and without proper centrol was remanded for three days on a medical certificate.

RECOVERY .- About two months ago a silver communion plate disappeared mysteriously from the Wesleyan Parsonage, Broad street, and a Chinaman who was employed in cleaning out the premises made himself 'scarce' about the same time. A day or two ago, Mr John was observed on one of the streets, and tracked to his hiding place out of town. Yesterday Mr John Jessop, accompanied by a policeman, searched the premises and found the plate neatly wrapped in paper in a trunk. The Chinaman was taken into

By a new arrangement, the Pacific Mail Steamship Company is to carry all documents and such other mail matter as may be directed to be sent by that route between New York and San Francisco via the Isthmus of Panama; and arrangements have been made with Wells, Fargo &c. to carry the mails overland between the termini of the Union and the Central Pacific Railroads until the junction is formed between those

EARTHQUAKE AT SEA .- The American ship Isaac Jeans, which arrived last week at Port Townsend from Acapulco, reports that when a few days out from that port she encounters ed three fearful tidal waves which filled all on board with consternation, and would have caused the ship to founder had she not been 'head on.'

THE LECTURE.-The Committee of the Mechanics' Institute, and the members of the Institution, have made their arrangements for Mr Jenns' Lecture on Thursday night, and are working hard together to make it a gract success. We are happy to hear that their labors are likely to be rewarded by a crowded house.

Wolves .- In the neighborhood of Swan Lake, and even nearer to the Arm, the wolves have recently come from the hills and made serious depredations upon the farmers. Sheep especially have suffered, Strychnine was used effectually a few nights since. The wolves killed were of the large grey species.

SMALL-Pox .- Since our last report of this contagion, embracing five days, there has not been a single new case reported to the Town Clerk up to yesterday at noon. This fact at once settles the question about the disease in creasing to the satisfaction of all impartial THE OTTER.-This vessel is to leave

early this morning, having been detained beyond the time fixed for sailing. In addition to the regular freight of the H B Co., she takes up about 50 tons; 30 tons for Metlah katlah, and 20 for Sitka.

Rumon.-It was rumored in the city yes terday that Miss Lizzie Yeoman, favorably

THE schooner Thomas Woodward, from San Francisco on her way to Sitka, arrived in Esquimalt harbor yesterday afternoon.

THE schooner Alpha, Thomas Brennan, leaves for the Sandwich Islands this morning, laden with lumber from Burrard Inlet.

The Appointment of Mr. Hankin.

EDITOR BRITISH COLONIST -- Mr A De Cosmos says in yesterday's paper when writing of the appointment of Philip Hankin: 'I am one who consider the new appointment a fortunate circumstance for the Colony. as it will bring very forcibly under public notice how little Mr Young has done during the ten years that he has been at the head of the Executive Council.' If any one will turn to the debates upon

the Union question, he will find that Mr Young warned the members of the Legislative Assembly that if they voted for Union the Colony of Vancouver Island would lose her Representative Institutions, and be brought under the peculiar Government of the Mainland. He, at all events, tried to keep our Representative Institutions when we had them. Who was the chief instrument in depriving this Colony of them? The answer is, Amor DeCosmos! True it is that he was hoodwinked by Governor Kennedy and so probobly were the other members But not only did Mr Young try to keep our Representative Icatitutions, but when they had been lost he evidently tried to regain them by supporting Mr De Cosmos, as the

following report from the Blue Book shows : 'Mr de Cosmos moved, and Mr Helmcken seconded the following Resolution - That H E the Governor, be respectfully requested to cause to be introduced into the Council an Ordinance making at least two-thirds of the Council elective. The question being

I think the above shows that Mr Young has done more than Amor DeCosmos. Singularly enough the Resolution above quoted was brought forward only three days before the Council ended its labors. What it will

produce remains to be seen. I am one who consider the new appointment a very unfortunate one for the Colonunay, more, the greatest insult yet offered to this Colony by the Government, perhaps unwittingly. Every one is aware how Philip Hankin carried himself when here beforehow little he showed himself fit for any business-and how he left the Colony. At the present moment, the Colony being in a delicat postuon, a good man, conversant with its affairs and knowing something about finance, is required—and perhaps noce better for the timebeing can be had than the present incumbent. Put a new man in: he has to be taught his duties, and the Colony must suffer from his inexperience, incapacity and un popularity. No one, as far as I know, has the smallest confidence in Philip Hankin's ability, but all assert him to be an unfit man to say the least. Why those who wish for Confederation desire to retain the Governor and obtain Mr Hankin is, that the Government may be made so unpopular, and show itself so incompetent, that the people will look for anything as a remedy-even Confederation. It would be well to get up a petition to the Governor, urging him not to confirm the appointment of Mr Hankin until His Excellency had communicated with the Home Government, and urge upon the Gov-

ernment the desirability nay, necessity, of

cancelling the appointment.

A Spiritualist has been arrested in Naples, who, by professing to communiscate with the souls of eminent men, swindled one of his dupes out of \$60,000. By the demise of Count Walewski a

The dreaded Fra Diavolo of Ravenna, Italy, was recently tracked and sur-rounded in his retreat by a company of soldiers. Before he could be secured he killed one and wounded several other soldiers.

The Toulouse papers mention the blowing up of a new bridge in that city by an escape of gas. One man was killed and sixteen passers by were badly wounded.

Two students, accompanied by two guides, recently made the virgin ascent of the Grosshorn in Switzerland. This has never been attemped before, and these fortunate tourists reached an altitude of 12,418 feet without accident. The trip occupied twenty-two hours.

The Paris Figaro mentions that Count Walewski died comparatively poor-that is, for our time, because, besides the property of the Marais d'Ox, worth about \$300,000, he leaves three houses in Paris, his villa at St Germain, the property of Amphion, near the Lake of Geneva, and decorations at the intrinsic value of

An individual, doubtless driven to despair, advertizes, through the medium of the Figaro, that in consideration of a life pension of \$2,000 settled on his children he will place himself entirely at the dis-posal of any gentleman who will accept the terms. He will fight a duel with any one, will climb any glacier, descend into the crater of Vesuvius or precipitate him-self from a balloon-in fact, undertake any other pastime his master may dictate. It is reported from Lisbon that the Duke de Montpensier has written to the

Emperor Napoleon stating that he would not accept the Spanish crown even if it were offered to him. The latest English journals express the

opinion that the discovery of the plot to depose the Sultan of Turkey may lead to the most important results. The participation of the presumptive heir may be made, it is said, a pretext for changing the order of succession, and the arrest of a Russian subject may provoke a conflict between the Sublime Porte and the Cabinet of St Petersburg.

The Paris Etendard, referring to the announcement of an extensive conspiracy having been discovered at Constantinonle says :-- We are in a position to state that so far no information from a reliable source has been received to confirm this intelligence. If any event of importance had occurred in the Ottoman capital the imperial government would certainly have received positive intimation of it.

The accounts from Italy are more favorable. A Paris journal, remarking on the completion of the Italian Cabinet, says :- As now constituted, the Ministry may consider itself to have happily escaped from the crisis that menaced it and on which the opposition seemed already to base hopes. At Florence, as in the provinces, the public shows itself favorable to vigorous measures for the maintenance of order.

The report that the Pope had adviced Queen Isabella of Spain to abdicate in favor of Charles VII., is denied from

A sergeant of the Fifty-ninth regiment of the line of the French troops now in Rome has deserted and formed a band of brigands on his own account. All his men are French deserters, and they ply the pative amateurs even blush.

The recent disastrous explosion at Metz was caused by a work woman. a moment of passion, shet hrow a pair of scissors among the fulminating powder used in the manufacture of cartridges. Forty-five persons were killed, besides

twenty-eight badly wounded.

The Fischietto, of Turin, publishes the following caricatures on the Napoleonic -The first represents Napoleon standing on the crater of a volcano (re-volutionary tendency) pouring water (euppression) on the fire. "Doubly mad in the hope of extinguishing it, he persists in standing on the crater of a smoking volcano." The second represents Napoleon embracing the Pope, but both have terror depicted in their countenances. Behind Napoleon stands the phantom of the French republic, and behind the Pope that of Garibaldi. "Promising promoters of liberty—one pretends to dictate to all Europe, and the other wants the world at his feet; now they are embracing each other, but not heartly. The mere shade ows of their respective familiar phantoms startle them."

The tory journals do not take up the "No Popery" cry of the Premier, but rest the claims of their party in the Parliamentary canvass on the brilliant foreign policy of the Ministry, the success of the Abyssinian war, the necessity for the defence of the Church of Eugland from the daugers by which it is menaced and the maintenance of the strictest, economy. in the public expenditures. On the latter point, however, they are sharply assailed by the Whigs, who point out the wide in-consistency which exists between the precepts and practices of the party in

NEW YORK, Nov 21 - Marshall Murray has informed the Government that the Cuban filibusters have made extensive arrangements in New York, with reinforcements in all the other large cities. He says there is danger of their getting away from New Orlevns unless they are watched; they have plenty of money, and are purchasing arms and ammunition quite freely.

Canada.

St. John's, N B, Nov 21-The financial panic still continues unabated. Notes of the Falmouth (Nova Scotia and Prince Edward's Island bank), have been refused today. The St Stephens' notes are selling at 35 per cent discount. The chance of the bank resuming payment is considered remote.

London, Nov 21-The Times says that the elections thus far give the Liberals 310 and the Conservatives 168.

Serious riots have occurred at various places. At Sligo there were formidable outbreaks. Ten houses were sacked by the mob, and other damage was done. In the little town of Roply, in Derbyshire, a sharp fight cocurred; many persons were injured by stones from the hands of the rioters.

How manythousands of persons, both male and families are there who has sufering out a miserable eristence from the effects of secret indulgences, errors in the effects of secret indulgences, and their broken lid, emacasted and distigured faces, and their broken down constitutions, disqualitying them from the halpfulces of marriage or of the enjoyment of life. In this horred situation, thousands sufer until death closes the scene. Let parents, guardians, friends, attend to those who are suffering with any of these horrible, life-destroying miadales—see that they are caredfor, and cured before it be too late. Send then immediately to Dr. Gimson, a physician who has made private diseases his especial study for years, who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those afflitted, or to those who are intrested in the welfare of their fronts, to be careful of the important to those afflitted, or to those who are intrested in the welfare of their fronts, to be careful of the many pitch in curing only pitch in curing only the phase. They must not be confounde with secret or quack medicines, as their names suffic ently indicate their composition; a circumstance which has caused them to be appreciated and prescribed by the Faculty in the whole world. They widely differ from those numerous medicines advertised in the public papers as able to cure every possible disease, as they re applicable only to but a very few complaints. The most stringent laws exist in France with regard to the sale o medical preparations, and only those which have under gone an examination by the Academy of Medicine and have been proved efficacious, either in the hospital or in the practice of the first medicaimen, are authorised by the Government.
